Badlands Community Facility *Steering Committee Approves Kitchen Design*

DRUMHELLER, July 30, 2010 – At a meeting on July 28th, The Badlands Community Facility Steering Committee approved the design of the kitchen that will be included in the new facility.

At the meeting, drawings were circulated and each area of the kitchen was identified. The kitchen will be located on the second floor of the facility with an elevator to provide easy access.

The Kitchen will include:

- Prep area
- Cooking area
- Walk in Freezer and Cooler
- Dry Storage Area
- Plating area
- Staff entrance from the dining room
- Dish/pot washing area
- Portable bar storage
- Staff facilities with lockers

The Badlands Community Facility will be able to host up to 500 people for an event that includes dining. The users of the facility can choose from either a sit down service option offered by a caterer in which a wait staff serves the catered food to each individual guest or buffet style dining.

Construction has already started on the Badlands Community Facility. The facility will include a field house, running track, fitness centre, meeting facilities and a public library followed by an arena and curling rink as funding becomes available.
