

REQUEST FOR QUOTATION

QUOTATION: **Town of Drumheller – 2018 Crack Filling Program**

REQUEST INITIATION DATE: **September 10, 2018**

INITIATOR OF REQUEST: **Kevin Blanchett, Operations Manager**

Town of Drumheller Representative

DATE QUOTATION REQUIRED:

YEAR: **2018** MONTH: **September** DAY: **20** TIME: **2:00 PM**

QUOTATIONS MUST BE SUBMITTED IN SEALED ENVELOPES CLEARLY MARKED “Quotation For: 2018 Crack Filling Program”

DELIVER OR SEND TO MAILING ADDRESS:

TOWN OF DRUMHELLER,
224 Centre Street
Drumheller, Alberta T0J 0Y4

Attention: Darryl Drohomerski, C.A.O.

Bidders are completely responsible for ensuring that their bids reach the correct final location prior to the bid submission deadline. Fax, e-mail and other non hard copy forms of bids or amendments WILL NOT be accepted.

You are invited to submit a quotation, pursuant to the general conditions for the scope of work described. This request shall not be considered authorization to proceed with the work herein described.

SECTION #1

1. **SCOPE OF WORK:**

a) **AIRPORT RUNWAY**

Unless otherwise directed by the Town of Drumheller, all transverse cracks between 5mm and 25mm in width and longitudinal cracks between 5mm and 12mm in width which are within the pavement surface shall be **AIR BLOWN AND SEALED**. Sealing shall extend 0.5m into the pavement shoulder.

Prior to the application of crack sealant, the road surface adjacent to the cracks shall be cleaned and all loose material and moisture shall be removed from all cracks. All debris resulting from cleaning shall be removed from the runway surface. All cracks shall be treated with compressed air lance until the pavement in the cracks, is dry and slightly darkened. There shall be a maximum time period of 2 minutes between cleaning and drying the cracks and the application of the crack sealant.

Crack sealant shall be heated and applied within the applicable specified temperature ranges and in accordance with the Manufacturer's recommendations. The heat transfer oil in the melting kettle shall not be heated in excess of 50°C above the safe heating temperature.

Traffic shall be kept off sealed cracks until the crack sealant has cured. At locations such as intersections where this is practical, the contractor shall prevent tracking by applying a blotting agent to the crack sealant. When a blotting agent is used, it shall not be applied until the sealant has cooled sufficiently to prevent inclusion of the blotting agent into the sealant.

b) **TOWN OF DRUMHELLER MUNICIPAL ROADS**

Same as the scope above for the Airport Runway except for the first paragraph will be as follows:

Unless otherwise directed by the Town of Drumheller, all transverse cracks between 5mm and 25mm in width and longitudinal cracks between 5mm and 12mm in width which are within the pavement surface shall be **ROUTED, AIR BLOWN AND SEALED**.

2. SITE TOUR:

Friday, September 14, 2018 at 1:00 PM at the Public Works Shop
124 8 Ave SE, Drumheller, Alberta T0J 0Y6

Contractors that wish to attend the site tour must RSVP to Kevin Blanchett at 403-823-1351.
